Career Objective

Aspiring UI/UX designer and developer with a passion for solving real-world problems through design. With a background in computer science and hands-on experience in leading interdisciplinary projects, I discovered my love for UX design while developing user-centered solutions. I am enthusiastic about creating beautiful and creative user interfaces that enhance user satisfaction and engagement, and I am eager to contribute to impactful design projects.

Skills

Technical Skills:

HTML, CSS, Bootstrap,

JavaScript , React.js,

WordPress

Adobe Illustrator, Photoshop, Figma

Soft Skills:

Problem-Solving, Critical Thinking,

Team Collaboration

Experience/Projects

The Global Chronical – An online news website (JavaScript)

Aditya Degree College– Final Year Project

- The primary goal of this project is to build a modern, responsive, and user-friendly news website that showcases different categories (e.g., News, Earth, Sport, Economy, Politics, Analytics, Other) news by fetching data from the NewsAPI.
- The website is designed to demonstrate my skills in JavaScript, HTML, CSS, and API integration, along with creating an engaging and interactive user interface.

- This project ignited my passion for UI/UX design, where I aim to blend functionality with aesthetically pleasing interfaces.

BreatheFit– Gym & Yoga Web Application (React)

- Developed BreatheFit, a responsive web application focused on gym and yoga.
- Features include detailed profiles of trainers and product listings for gym, yoga, and sportswear.
- Implemented dynamic data rendering, intuitive UI/UX, and optimized performance for a seamless user experience.

Internships

Final Year Internship

ULearn (8th Feb 2024 - 26th April 2024)

- Completed a web development internship at ULearn, focused on building responsive websites using HTML, CSS, and JavaScript
- Gained hands-on experience in designing interactive user interfaces, optimizing site performance, and implementing best practices in front-end development.
